HEIDRICK & STRUGGLES INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(All tables in thousands, except share and per share figures)
(Unaudited)

1. Basis of Presentation of Interim Financial Information

The accompanying unaudited Condensed Consolidated Financial Statements of Heidrick & Struggles International, Inc. and subsidiaries (the “Company”) have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Significant items subject to estimates and assumptions include revenue recognition, allowance for doubtful accounts, interim effective tax rate, allowances for deferred tax assets, compensation accruals, and contingent liabilities. Estimates are subject to a greater degree of uncertainty and actual results could differ from these estimates. These financial statements and notes are to be read in conjunction with the Company’s Consolidated Financial Statements and Notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC on March 15, 2012.

2. Summary of Significant Accounting Policies

A complete listing of the Company’s significant accounting policies are discussed in Note 2, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC on March 15, 2012.

Recently Adopted Financial Accounting Standards

On January 1, 2012 the Company adopted the Financial Accounting Standards Board’s (“FASB”) guidance to increase the prominence of other comprehensive income within the financial statements. The guidance requires entities to present the components of net income and other comprehensive income either in a single continuous statement or in two separate, but consecutive, statements of net income and other comprehensive income. The option to only present other comprehensive income within the statement of stockholders’ equity was eliminated. The Company has presented the components of net income and other comprehensive income in a single continuous statement.

On January 1, 2012, the FASB Accounting Standards Update No. 2011-08, *Testing Goodwill for Impairment*, became effective. This standard gives an entity the option of performing a qualitative assessment to determine whether it is necessary to perform step 1 of the annual goodwill impairment test. An entity is required to perform step 1 only if it concludes that it is more likely than not that a reporting unit’s fair value is less than its carrying amount. An entity may choose to perform the qualitative assessment on none, some, or all of its reporting units or an entity may bypass the qualitative assessment for any reporting unit in any period and proceed directly to step 1 of the impairment test. The Company performs its annual impairment test during the fourth quarter of each year.

3. Allowance for Doubtful Accounts

The activity of the allowance for doubtful accounts for the six months ended June 30, 2012 is as follows:

Balance at December 31, 2011	\$3,805
Provision charged to income	1,853
Write-offs	(933)
Currency	(19)
Balance at June 30, 2012	<u>\$4,706</u>

4. Stock-based Compensation

The Company’s 2007 Heidrick & Struggles GlobalShare Program (the “Prior Program”) provided for grants of stock options, stock appreciation rights and other stock-based awards to directors, selected employees and independent contractors. The Prior Program expired on May 24, 2012. Outstanding awards granted under the Prior Program remain outstanding and subject to the terms of the Prior Program and award agreements until such awards vest, are exercised, terminate or expire pursuant to their terms. As of June 30, 2012, there were 594,277 awards outstanding under the Prior Program.

On May 24, 2012, the stockholders of the Company approved the 2012 Heidrick & Struggles GlobalShare Program (the “2012 Program”) at the Company’s Annual Meeting of Stockholders. The 2012 Program provides for grants of stock options, stock appreciation rights, and other stock-based awards that are valued based upon the grant date fair value of shares. These awards may be granted to directors, selected employees and independent contractors.

[Table of Contents](#)

The total number of shares authorized or reserved for issuance under the 2012 Program is 1,300,000 shares (consisting of a number of shares not previously authorized for issuance under any plan, and the number of shares not subject to awards and remaining available for issuance under the Prior Program, as amended on April 2, 2012), plus any shares subject to the 671,528 outstanding awards as of April 2, 2012 under the Prior Program that on or after the effective date cease for any reason to be subject to such awards. Stock awards forfeited or cancelled under the Prior Program and the 2012 Program are eligible for reissuance under the 2012 Program. As of June 30, 2012, no grants have been authorized or issued under the 2012 Program and 1,335,330 shares remain available for future awards. The 2012 Program provides that no awards can be granted after May 24, 2022.

The Company measures its stock-based compensation costs based on the grant date fair value of the awards and recognizes these costs in the financial statements over the requisite service period.

A summary of information with respect to stock-based compensation is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Total stock-based compensation expense included in operating income	\$ 1,449	\$ 1,410	\$2,800	\$3,148

Forfeited	(11,719)	27.73
Outstanding on June 30, 2012	<u>120,339</u>	<u>24.72</u>

As of June 30, 2012, there was \$1.5 million of pre-tax unrecognized compensation expense related to unvested performance stock units, which is expected to be recognized over a weighted average of 2.3 years.

[Table of Contents](#)

5. Property and Equipment

The components of the Company's property and equipment are as follows:

	June 30, 2012	December 31, 2011
Leasehold improvements	\$ 43,243	\$ 42,789
Office furniture, fixtures and equipment	24,198	24,602
Computer equipment and software	40,026	45,270
Property and equipment, gross	107,467	112,661
Accumulated depreciation	(63,577)	(67,880)
Property and equipment, net	<u>\$ 43,890</u>	<u>\$ 44,781</u>

Depreciation expense for the three months ended June 30, 2012 and 2011 was \$2.5 million and \$1.9 million, respectively. Depreciation expense for the six months ended June 30, 2012 and 2011 was \$4.9 million and \$3.7 million, respectively.

6. Restricted Cash

The Company had \$1.7 million and \$1.9 million of restricted cash at June 30, 2012 and December 31, 2011, respectively, in support of lease guarantees. In accordance with the terms of the lease agreements, the cash balances are restricted through the termination dates of the leases, which extend through 2018.

7. Investments

The components of the Company's investments are as follows:

	June 30, 2012	December 31, 2011
U.S. non-qualified deferred compensation plan	\$10,668	\$ 9,313
Warrants and equity securities	540	555
Total	<u>\$11,208</u>	<u>\$ 9,868</u>

The Company's U.S. non-qualified deferred compensation plan consists primarily of U.S. marketable securities and mutual funds, all of which are valued using Level 1 inputs. The aggregate cost basis for these investments was \$9.2 million and \$8.3 million as of June 30, 2012 and December 31, 2011, respectively. The warrants and equity securities primarily consist of cost method investments, none of which were evaluated for impairment since there were no triggering events in the respective periods.

8. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level fair value hierarchy prioritizes the inputs used to measure fair value. The hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities.
- Level 2 – Quoted prices in active markets for similar assets and liabilities, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Substantially all of the Company's assets that are measured at fair value on a recurring basis are measured using Level 1 inputs. The Company considers the recorded value of its financial assets and liabilities, which consist primarily of cash and cash equivalents, accounts receivable, and accounts payable, to approximate the fair value of the respective assets and liabilities at June 30, 2012 and December 31, 2011 based upon the short-term nature of the assets and liabilities.

9. Goodwill and Other Intangible Assets, Net

Goodwill

Changes in the carrying amount of goodwill by segment for the six months ended June 30, 2012 are as follows:

	Americas	Asia Pacific	Total
Balance at December 31, 2011	\$82,814	\$ 7,882	\$90,696
Exchange rate fluctuations	18	178	196
Balance at June 30, 2012	<u>\$82,832</u>	<u>\$ 8,060</u>	<u>\$90,892</u>

Other Intangible Assets, Net

The carrying amount of amortizable intangible assets and the related accumulated amortization are as follows:

	Weighted Average Life (in years)	June 30, 2012			December 31, 2011		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Client relationships	12.6	\$10,222	\$ (8,103)	\$ 2,119	\$10,208	\$ (7,877)	\$ 2,331
Candidate database	6.0	1,800	(1,725)	75	1,800	(1,575)	225
Total intangible assets	<u>12.3</u>	<u>\$12,022</u>	<u>\$ (9,828)</u>	<u>\$ 2,194</u>	<u>\$12,008</u>	<u>\$ (9,452)</u>	<u>\$ 2,556</u>

Intangible asset amortization expense for the three months ended June 30, 2012 and 2011 was \$0.2 million and \$0.3 million, respectively. Intangible asset amortization expense for the six months ended June 30, 2012 and 2011 was \$0.4 million and \$0.6 million, respectively. The estimated intangible amortization expense is \$0.6 million for fiscal year 2012, \$0.4 million for fiscal year 2013, \$0.4 million for fiscal year 2014, \$0.3 million for fiscal year 2015, and \$0.3 million for fiscal year 2016. These amounts are based on intangible assets recorded as of June 30, 2012, and actual amortization expense could differ from these estimates as a result of future acquisitions and other factors.

10. Components of Net Periodic Benefit Cost

The Company maintains a pension plan for certain current and former employees in Germany. The pensions are individually fixed euro amounts that vary depending on the function and the eligible years of service of the employee.

The components of net periodic benefit cost are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Service cost	\$ 37	\$ 39	\$ 75	\$ 76

The pension benefits are fully reinsured through a group insurance contract with ERGO Lebensversicherung AG. The change in the fair value of these assets approximates the net periodic benefit cost for the three and six months ended June 30, 2012.

11. Restructuring Charges

The accrued restructuring charges at June 30, 2012 consist of employee-related costs that require cash payments based on severance arrangements and real estate leases that require cash payments through the lease terms reduced by sublease income. Based on current estimates, the Company expects that cash outlays over the next twelve months related to restructuring charges accrued at June 30, 2012 will be \$2.9 million, with the remainder payable over the terms of the severance arrangements and remaining lease terms of the vacated properties, which extend through 2016.

Changes in the accrual for restructuring charges for the six months ended June 30, 2012 are as follows:

	<u>Employee Related</u>	<u>Office Related</u>	<u>Total</u>
Accrual balance at December 31, 2011	\$ 7,664	\$2,512	\$10,176

13. Income Taxes

In the second quarter of 2012, the Company reported income before taxes of \$5.5 million and recorded an income tax provision of \$3.6 million. The Company's effective income tax rate for the second quarter of 2012 was 66.3%, which reflects an adjusted full-year expected annualized tax rate of approximately 57 percent, up from the first quarter 2012 adjusted full-year expected annualized tax rate of approximately 47 percent. The increase in the anticipated full-year annualized tax rate from the first quarter is primarily due to a change in the projection and mix of income earned worldwide.

For the first six months of 2012, the Company reported income before taxes of \$10.0 million and recorded an income tax provision of \$7.5 million. The Company's effective income tax rate for the six months ended June 30, 2012 was 74.6%, down from an effective income tax rate in the first quarter of 84.9%. The decrease in the tax rate from the first quarter was due to the impact of periodic charges recorded in the first quarter as compared to increased year-to-date income before taxes.

In the second quarter of 2011, the Company reported income before taxes of \$11.0 million and recorded an income tax provision of \$3.6 million. The Company's effective income tax rate for the second quarter of 2011 was 32.5%.

For the first six months of 2011, the Company reported income before taxes of \$5.1 million and recorded an income tax provision of \$2.3 million. The Company's effective income tax rate for the six months ended June 30, 2011 was 45.7%.

14. Segment Information

The Company operates its executive search and leadership consulting services in three geographic regions: the Americas; Europe, which includes Africa; and Asia Pacific, which includes the Middle East.

For segment purposes, reimbursements of out-of-pocket expenses classified as revenue and restructuring charges are reported separately and, therefore, are not included in the results of each geographic region. The Company believes that analyzing trends in revenue before reimbursements (net revenue), analyzing operating expenses as a percentage of net revenue, and analyzing operating income excluding restructuring charges, more appropriately reflects its core operations. By segment,

[Table of Contents](#)

restructuring charges were \$0.6 million in Europe and a credit of \$0.1 million in the Americas for the second quarter of 2012, and \$0.8 million in Europe for the first six months of 2012. There were no restructuring charges for the first six months of 2011.

The revenue, operating income, depreciation and amortization, and capital expenditures, by segment, are as follows:

15. Guarantees

The Company has issued guarantees supporting the payment of office lease obligations for certain of its subsidiaries in Europe and Asia Pacific. The guarantees were made to secure the respective lease agreements and are for the terms of the lease agreements, which extend through 2018. For each guarantee issued, should the subsidiary default on a lease payment, the Company would have to perform under the guarantee. The maximum amount of undiscounted payments the Company would be required to make in the event of default on all outstanding guarantees is approximately \$1.7 million as of June 30, 2012. The Company has not accrued for these guarantee arrangements as no event of default exists or is expected to exist.

16. Commitments and Contingencies

The Company has contingent liabilities from various pending claims and litigation matters arising in the ordinary course of the Company's business, some of which involve claims for damages that may be substantial in amount. Some of these matters are covered by insurance. Although the Company's ultimate liability in the matter discussed below cannot be determined, based upon information currently available, the Company believes the ultimate resolution of such claims and litigation will not have a material adverse effect on its financial condition, results of operations or liquidity.

UK Employee Benefits Trust

On January 27, 2010, HM Revenue & Customs ("HMRC") in the United Kingdom notified the Company that it was challenging the tax treatment of certain of the Company's contributions in the United Kingdom to an Employee Benefits Trust between 2002 and 2008. HMRC alleges that these contributions should have been subject to Pay As You Earn tax and Class 1 National Insurance Contributions in the United Kingdom; and HMRC is proposing an adjustment to the Company's payroll tax liability for the affected years. The aggregate amount of HMRC's proposed adjustment is approximately £3.9 million (equivalent to \$6.1 million at June 30, 2012). The Company has appealed the proposed adjustment. At this time, the Company believes that the likelihood of an unfavorable outcome with respect to the proposed adjustment is not probable and the potential amount of any loss cannot be reasonably estimated. The Company also believes that the amount of any final adjustment would not be material to the Company's financial condition.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations as well as other sections of this annual report on Form 10-Q contain forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. The forward-looking statements are based on current expectations, estimates, forecasts and projections about the industry in which we operate and management's beliefs and assumptions. Forward-looking statements may be identified by the use of words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "projects," "forecasts," and similar expressions. Forward-looking statements are not guarantees of future performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict. Actual outcomes and results may differ materially from what is expressed, forecasted or implied in the forward-looking statements. Factors that may affect the outcome of the forward-looking statements include, among other things, our ability to attract, integrate, manage and retain qualified executive search consultants; our ability to develop and maintain strong, long-term relationships with our clients; further declines in the global economy and our ability to execute successfully through business cycles; the timing, speed or robustness of any future economic recovery; social or political instability in markets where we operate, the impact of foreign currency exchange rate fluctuations; unfavorable tax law changes and tax authority rulings; price competition; the ability to forecast, on a quarterly basis, variable compensation accruals that ultimately are determined based on the achievement of annual results; our ability to realize our tax losses; the timing of the establishment or reversal of valuation allowance on deferred tax assets; the mix of profit and loss by country; the effect of our goodwill and intangible asset impairment charges and our restructuring initiatives; delays in the development and/or implementation of new or improved technology and systems; and the ability to align our cost structure and headcount with net revenue. For more information on the factors that could affect the outcome of forward-looking statements, refer to our Annual Report on Form 10-K for the year ended December 31, 2011, under Risk Factors in Item 1A. We caution the reader that the list of factors may not be exhaustive. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Executive Overview

Our Business

We are a leadership advisory firm providing executive search and leadership consulting services. We help our clients build leadership teams by facilitating the recruitment, management and deployment of senior executives. Focusing on top-level services offers us several advantages that include access to and influence with key decision makers, increased potential for recurring search and consulting engagements, higher fees per search, enhanced brand visibility, and leveraged global footprint, which create added barriers to entry for potential competitors. Working at the top of client organizations also allows us to attract and retain high-caliber consultants.

In addition to executive search, we provide a range of leadership consulting services to clients. Our leadership consulting services, which are currently less than 10% of our net revenue, include succession planning, executive assessment, talent retention management, executive development, transition consulting for newly appointed executives, and mergers and acquisitions human capital integration consulting.

We provide our services to a broad range of clients through the expertise of 340 consultants located in major cities around the world. Our executive search services are provided on a retained basis. Revenue before reimbursements of out-of-pocket expenses ("net revenue") consists of retainers and indirect expenses billed to clients. Typically, we are paid a retainer for our executive search services equal to approximately one-third of the estimated first year compensation for the position to be filled. In addition, if the actual compensation of a placed candidate exceeds the estimated compensation, we often are authorized to bill the client for one-third of the excess. Indirect expenses are calculated as a percentage of the retainer with certain dollar limits per search.

Key Performance Indicators

We manage and assess Heidrick & Struggles' performance through various means, with the primary financial and operational measures including net revenue growth, operating income, operating margin, consultant headcount, confirmation trends, consultant productivity, and average revenue per search or project.

Revenue growth is driven by market conditions and a combination of an increase in executive search wins and leadership consulting projects, higher average revenue per search or project, and the development and hiring of additional consultants. With the exception of compensation expense, incremental increases in revenue do not necessarily result in proportionate increases in costs, particularly operating and administrative expenses, thus potentially improving operating margins.

The number of consultants, confirmation trends, number of searches or projects completed, productivity levels and the average revenue per search or project will vary from quarter to quarter, affecting revenue growth and operating margin.

Our Compensation Model

At the consultant level, individuals are largely rewarded for their performance based on a system that directly ties a significant portion of their compensation to the amount of net revenue for which they are responsible. A portion of the reward is based upon individual performance against a series of non-financial measures. Credit towards the variable portion of a consultant's compensation is earned by generating net revenue for winning and executing work. Each quarter, we review and update the expected annual performance of all consultants and accrue variable compensation accordingly. The amount of variable compensation that is accrued for each consultant is based on a tiered payout model and adjusted for overall Company performance. The more net revenue that is generated by the consultant, the higher the percentage credited towards the consultant's variable compensation and thus accrued by our company as expense. The mix of individual consultants who generate the revenue can significantly affect the total amount of compensation expense recorded and thus, operating margins. As a result, the variable portion of the compensation expense may fluctuate significantly from quarter to quarter. The total variable compensation is discretionary and is based on company-wide profitability targets approved by the Human Resources and Compensation Committee of the Board of Directors.

A portion of our consultants' and management cash bonuses are deferred and paid over a three-year vesting period. The compensation expense related to the amounts being deferred is recognized on a graded vesting attribution method over the requisite service period. This service period begins on January 1 of the respective fiscal year and continues through the deferral date, which coincides with our bonus payments in the first quarter of the following year, and for an additional three year vesting period. The deferrals are recorded in accrued salaries and employee benefits and other non-current liabilities in the Condensed Consolidated Balance Sheets.

2012 Outlook

We recently announced financial results for the second quarter 2012. Our 2012 second quarter net revenue fell short of our forecasted net revenue for the quarter due to the global economic environment, lower than expected confirmations, consultant turnover as well the factors described in Management's Discussion and Analysis of Financial Condition and Results of Operations of this quarterly report.

As part of this announcement, we indicated that we will no longer provide annual guidance for 2012, and we withdrew our previously issued 2012 guidance for net revenue of between \$510 million and \$540 million and operating margin of between 7 percent and 9 percent. The primary basis for management's decision to discontinue providing annual guidance for 2012 is the lower than expected net revenue during the six months ended June 30, 2012, the continued volatility in the global economic environment, and management's belief that the volatility in the economic and business conditions that influence our business may continue. This volatility reduces the visibility of forecasting beyond the near term.

We will continue to provide quarterly net revenue guidance and are forecasting 2012 third quarter net revenue of between \$115 million and \$125 million. Our 2012 third quarter net revenue guidance is based upon management's assumptions regarding the anticipated volume of new executive search and leadership consulting projects, our current backlog, consultant productivity, consultant retention, the seasonality of our business, the uncertainty in the global economic climate, and no change in future currency rates.

Our 2012 guidance is subject to a number of risks and uncertainties, including those discussed under Item 1A—*Risk Factors* in our 2011 Annual Report on Form 10-K. As such, actual results could vary from these projections.

We operate our executive search and leadership consulting services in three geographic regions: the Americas; Europe, which includes Africa; and Asia Pacific, which includes the Middle East.

For segment purposes, reimbursements of out-of-pocket expenses classified as revenue and restructuring charges are reported separately and, therefore, are not included in the results of each geographic region. We believe that analyzing trends in revenue before reimbursements (net revenue), analyzing operating expenses as a percentage of net revenue, and analyzing operating income excluding restructuring charges, more appropriately reflects our core operations.

By segment, restructuring charges were \$0.6 million in Europe and a credit of \$0.1 million in the Americas for the second quarter of 2012, and \$0.8 million in Europe for the first six months of 2012. There were no restructuring charges for the first six months of 2011.

The following table sets forth, for the periods indicated, our revenue and operating income by segment (in thousands):

Three Months Ended June 30, 2012 Compared to the Three Months Ended June 30, 2011

Total revenue. Consolidated total revenue decreased \$27.8 million, or 18.6%, to \$121.8 million in 2012 from \$149.6 million in 2011. The decrease in total revenue was due primarily to the decrease in revenue before reimbursements (net revenue).

Revenue before reimbursements (net revenue). Consolidated net revenue decreased \$26.7 million, or 18.7%, to \$116.1 million for the three months ended June 30, 2012 from \$142.8 million for the three months ended June 30, 2011. The negative impact of exchange rate fluctuations resulted in approximately 3 percentage points of the decrease. All industry practices except the Education & Social Enterprise practice contributed to the decline. The number of confirmed executive searches decreased 23.8% compared to the second quarter of 2011, due in part to an increase in consultant turnover during the three months ended June 30, 2012. The number of consultants was 340 as of June 30, 2012 compared to 386 as of June 30, 2011. The decrease in the number of consultants primarily reflects the global workforce reduction in the fourth quarter of 2011, as well as consultant turnover that more than offset new hires and promotions. Productivity, as measured by annualized net revenue per consultant, was \$1.3 million in the second quarter of 2012 compared to \$1.5 million in the second quarter of 2011, and average revenue per executive search was \$114,800 in the 2012 second quarter compared to \$107,400 in the 2011 second quarter.

Net revenue in the Americas was \$65.3 million for the three months ended June 30, 2012, a decrease of \$11.4 million, or 14.9%, from \$76.7 million in the second quarter of 2011. Net revenue in Europe was \$27.1 million for the three months ended June 30, 2012, a decrease of \$7.4 million, or 21.3%, from \$34.5 million in the second quarter of 2011. The negative impact of exchange rate fluctuations in Europe was approximately 7 percentage points in the second quarter of 2012. In Asia Pacific, net revenue was \$23.6 million for the three months ended June 30, 2012, a decrease of \$7.9 million, or 25.2%, from \$31.5 million in the second quarter of 2011. The negative impact of exchange rate fluctuations in Asia Pacific was approximately 3 percentage points in the second quarter of 2012.

[Table of Contents](#)

Salaries and employee benefits. Consolidated salaries and employee benefits expense decreased \$19.3 million, or 19.5%, to \$79.9 million for the three months ended June 30, 2012 from \$99.2 million for the three months ended June 30, 2011. The decrease in salaries and employee benefits expense is due to a decrease in fixed compensation of \$11.5 million and performance-related compensation of \$7.8 million. Fixed compensation decreased \$8.3 million due to a decrease in base compensation and payroll taxes primarily associated with a decrease in worldwide headcount as a result of the 2011 restructuring. At June 30, 2012 we had 1,447 total employees, compared to 1,615 total employees as of June 30, 2011. Fixed compensation decreased \$2.3 million related to non-recurring special recognition awards that were issued in 2011, a \$0.5 million decrease in the amortization of deferred cash compensation and \$0.4 million decrease in costs associated with hiring new consultants. The decrease in performance-related compensation reflects a decrease in accruals for variable compensation associated with lower net revenue.

Excluding a positive impact of \$2.5 million due to exchange rate fluctuations, which we believe provides a better comparison of operational performance, consolidated salaries and employee benefits expense decreased by 17.0% versus 19.5% as reported in the second quarter of 2012.

As a percentage of net revenue, salaries and employee benefits expense was 68.8% in the second quarter of 2012, compared to 69.5% in the second quarter of 2011.

General and administrative expenses. Consolidated general and administrative expenses decreased \$4.3 million, or 12.9%, to \$29.0 million for the three months ended June 30, 2012 from \$33.3 million for the three months ended June 30, 2011. The decrease reflects declines of \$1.4 million of travel and entertainment related costs, \$1.0 million of premise related costs, \$0.5 million of bad debt expense, \$0.5 million of advertising costs, \$0.4 million of professional fees, and \$0.5 million of other operating expenses.

Excluding a positive impact of \$0.7 million due to exchange rate fluctuations, which we believe provides a better comparison of operational performance, consolidated general and administrative expenses decreased by 10.8% versus 12.9% as reported in the second quarter of 2012.

As a percentage of net revenue, general and administrative expenses were 25.0% in the second quarter of 2012 compared to 23.3% in the second quarter of 2011.

Restructuring charges. During the second quarter of 2012, we recorded restructuring charges of \$0.5 million related to adjustments associated with our 2011 restructuring plan. These charges consist of \$0.8 million of employee-related costs associated with severance arrangements, partially offset by \$0.3 million of adjustments to premise related costs.

Operating income. Consolidated operating income was \$6.7 million for the three months ended June 30, 2012 compared to \$10.3 million for the three months ended June 30, 2011. The \$3.6 million decrease in operating income is primarily due to a decrease in net revenue of \$26.7 million and a \$0.5 million restructuring charge, offset by a decrease in salaries and employee benefits expense of \$19.3 million and general and administrative expenses of \$4.3 million.

For segment purposes, restructuring charges are not included in operating income by geographic region. We believe that analyzing trends in operating income excluding restructuring charges more appropriately reflects our core operations.

In the Americas, operating income for the three months ended June 30, 2012 decreased \$3.3 million to \$15.4 million from \$18.7 million for the three months ended June 30, 2011. The decrease is due to lower net revenue of \$11.4 million, offset by decreases in salaries and employee benefits expense of \$6.7 million and general and administrative expenses of \$1.4 million. The decrease in net revenue was primarily due to declines in the Consumer, Financial Services, Industrial, and Leadership Consulting practices. The decrease in salaries and employee benefits expense reflects a decrease of \$4.0 million in fixed compensation due primarily to lower headcount and a decrease of \$2.7 million in performance-related compensation associated with lower net revenue levels. The number of consultants was 157 as of June 30, 2012 compared to 178 as of June 30, 2011. The decrease in general and administrative costs is primarily due to a \$1.0 million decrease in technology related costs and a \$0.3 million decrease in premise related costs.

In Europe, operating income for the three months ended June 30, 2012 increased \$3.5 million to \$1.1 million from a loss of \$2.4 million for the three months ended June 30, 2011. The increase is due to a decline in salaries and employee benefits expense of \$8.7 million and general and administrative expenses of \$2.2 million partially offset by lower net revenue of \$7.4 million. The decrease in net revenue reflects declines in all industry practices except Leadership Consulting. The decrease in salaries and employee benefits expense reflects a decrease of \$6.6 million in fixed compensation due primarily to lower headcount as a result of our 2011 restructuring and a decrease of \$2.1 million in performance-related compensation associated with lower net revenue levels. The number of consultants was 95 as of June 30, 2012 compared to 128 as of June 30, 2011. The decrease in general and an administrative expense is primarily due to a decrease of \$1.0 million in travel and entertainment and a \$0.6 million reduction in bad debt expense.

In Asia Pacific, operating income for the three months ended June 30, 2012 decreased \$2.7 million to \$2.2 million from \$4.9 million for the three months ended June 30, 2011. The decrease is due to a decrease in net revenue of \$7.9 million partially offset by a decrease in salaries and benefits of \$5.0 million and general and administrative expenses of \$0.2 million. The decrease in net revenue reflects declines in the Financial Services, Industrial, and Consumer practices. The decrease in salaries and employee benefits expense reflects a decrease of \$1.8 million in fixed compensation due primarily to a decrease in special recognition awards related to 2011 and a decrease in severance. Performance-related compensation decreased \$3.2 million associated with lower net revenue levels. The number of consultants was 88 as of June 30, 2012 compared to 80 as of June 30, 2011.

Global Operations Support expenses for the three months ended June 30, 2012 increased \$0.6 million, or 5.5%, to \$11.5 million from \$10.9 million for the three months ended June 30, 2011. Salaries and employee benefits expense increased \$1.1 million due to increases in fixed compensation partially offset by a decrease in general and administrative expenses of \$0.6 million. General and administrative costs declined primarily due to decreases in professional service expenses.

Net non-operating income (expense). Net non-operating expense was \$1.2 million for the three months ended June 30, 2012 compared to net non-operating income of \$0.7 million for the three months ended June 30, 2011.

Net interest income was \$0.2 million in the second quarter of 2012 compared to \$0.3 million in the second quarter of 2011.

Net other non-operating expense was \$1.5 million for the three months ended June 30, 2012, compared to \$0.4 million of income for the three months ended June 30, 2011. Net other non-operating expense consists of exchange gains and losses on cash and intercompany balances, which are denominated in currencies other than the functional currency and are not considered permanent in nature.

Income taxes. In the second quarter of 2012, we reported income before taxes of \$5.5 million and recorded an income tax provision of \$3.6 million. Our effective income tax rate for the second quarter of 2012 was 66.3%, which reflects an adjusted full-year expected annualized tax rate of approximately 57 percent, up from the first quarter 2012 adjusted full-year expected annualized tax rate of approximately 47 percent. The increase in the anticipated full-year annualized tax rate from the first quarter is primarily due to a change in the projection and mix of income earned worldwide.

In the second quarter of 2011, we reported income before taxes of \$11.0 million and recorded an income tax provision of \$3.6 million. Our effective income tax rate for the second quarter of 2011 was 32.5%.

Six Months Ended June 30, 2012 Compared to the Six Months Ended June 30, 2011

Total revenue. Consolidated total revenue decreased \$36.4 million, or 13.5%, to \$234.1 million in 2012 from \$270.5 million in 2011. The decrease in total revenue was due primarily to the decrease in revenue before reimbursements (net revenue).

Revenue before reimbursements (net revenue). Consolidated net revenue decreased \$35.8 million, or 13.9%, to \$222.6 million for the six months ended June 30, 2012 from \$258.4 million for the six months ended June 30, 2011. The negative impact of exchange rate fluctuations resulted in approximately 2 percentage points of the decrease. Net revenue decreased in all regions. The number of confirmed executive searches decreased 16.9% compared to the six months ended 2011, due in part to an increase in consultant turnover during the six months ended June 30, 2012. The number of consultants was 340 as of June 30, 2012 compared to 386 as of June 30, 2011. The decrease in the number of consultants primarily reflects the global workforce reduction in the fourth quarter of 2011, as well as consultant turnover that more than offset new hires and promotions. Productivity, as measured by annualized net revenue per consultant, decreased to \$1.3 million in the six months ended 2012 from \$1.4 million in the six months ended 2011, and average revenue per executive search was \$107,400 for the six months ended June 30, 2012 compared to \$104,500 in for the six months ended June 30, 2011.

Net revenue in the Americas was \$124.2 million for the six months ended June 30, 2012, a decrease of \$16.0 million, or 11.4%, from \$140.2 million for the six months ended June 30, 2011. Net revenue in Europe was \$54.2 million for the six months ended June 30, 2012, a decrease of \$7.9 million, or 12.7%, from \$62.1 million for the six months ended June 30, 2011. The negative impact of exchange rate fluctuations contributed to the decrease in net revenue in Europe by approximately 5 percentage points for the six months ended 2012. In Asia Pacific, net revenue was \$44.2 million for the six months ended June 30, 2012, a decrease of \$11.9 million, or 21.3%, from \$56.1 million for the six months ended June 30, 2011. The negative impact of exchange rate fluctuations decreased net revenue in Asia Pacific by approximately 1 percentage point for the six months ended June 30, 2012.

Salaries and employee benefits. Consolidated salaries and employee benefits expense decreased \$31.0 million, or 16.6%, to \$156.6 million for the six months ended June 30, 2012 from \$187.6 million for the six months ended June 30, 2011. The decrease in salaries and employee benefits expense is a result of a decrease in fixed compensation of \$16.9 million and performance-related compensation of \$14.1 million. The decrease is fixed compensation related to an \$11.8 million decrease in base compensation and payroll taxes associated with a decrease in worldwide headcount due to our 2011 restructuring. At June 30, 2012 we had 1,447 total employees, compared to 1,615 total employees as of June 30, 2011. Fixed compensation also declined due to a decrease of \$2.7 million related to non-recurring special recognition awards that were issued in 2011, a decrease of \$0.9 due to a decline in costs associated with hiring new consultants, a decrease of \$0.7 million of severance expense, a \$0.4 million decrease in stock based compensation expense and \$0.4 million of other fixed compensation. The decrease in performance-related compensation was associated with lower net revenue levels.

Excluding a positive impact of \$3.2 million due to exchange rate fluctuations, which we believe provides a better comparison of operational performance, consolidated salaries and employee benefits expense decreased by 14.9% percent versus 16.6% as reported in the six months ended June 30, 2012.

[Table of Contents](#)

As a percentage of net revenue, salaries and employee benefits expense was 70.3% in the first six months of 2012, compared to 72.6% in the first six months of 2011.

General and administrative expenses. Consolidated general and administrative expenses decreased \$9.3 million, or 14.4%, to \$55.3 million for the six months ended June 30, 2012 from \$64.6 million for the six months ended June 30, 2011. Fees for professional services decreased \$3.0 million due primarily to a reduction in costs associated with the development of our internal search system and a decrease in professional tax consulting fees. The decrease was also due to declines of \$2.5 million in travel and entertainment, \$1.5 million in premise costs, \$1.0 million in depreciation and amortization, \$0.7 million in advertising costs and \$0.6 million in other operating and infrastructure costs.

Excluding a positive impact of \$1.1 million due to exchange rate fluctuations, which we believe provides a better comparison of operational performance, consolidated general and administrative expenses decreased by 12.7% versus 14.4% as reported in the six months ended June 30, 2012.

As a percentage of net revenue, general and administrative expenses were 24.9% in the first six months of 2012, compared to 25.0% in the first six months of 2011.

Restructuring charges. During the six months ended June 30, 2012, we recorded restructuring charges of \$0.8 million related to adjustments associated with our 2011 restructuring plan. These charges consist of \$1.1 million of employee-related costs associated with severance arrangements, partially offset by \$0.3 million of adjustments to premise related costs.

Operating income. Our consolidated operating income was \$9.9 million for the six months ended June 30, 2012 and \$6.2 million for the six months ended June 30, 2011. The increase in operating income is primarily due to decreases in salaries and employee benefits expense of \$31.1 million and general and administrative expenses of \$9.3 million partially offset by decrease in net revenue of \$35.8 million and a \$0.8 million restructuring charge.

For segment purposes, restructuring charges are not included in operating income by geographic region. We believe that analyzing trends in operating income excluding restructuring charges more appropriately reflects our core operations.

The Americas reported operating income of \$27.9 million for the six months ended June 30, 2012 compared to operating income of \$26.4 million for the six months ended June 30, 2011. The increase of \$1.5 million is due to a \$14.5 million decrease in salaries and employee benefits expense and a \$3.0 million decrease in general and administrative expenses partially offset by lower net revenue of \$16.0 million. The decrease in salaries and employee benefits is due to a \$7.5 million reduction in fixed compensation primarily associated with a reduction in headcount as a result of the 2011 restructuring and a \$7.0 million decrease in performance-related compensation associated with lower net revenues. The number of consultants was 157 as of June 30, 2012 compared to 178 as of June 30, 2011. The decrease in general and administrative costs is primarily due to a reduction in technology related costs.

Europe reported an operating income of \$2.5 million for the six months ended June 30, 2012, compared to an operating loss of \$4.4 million for the six months ended June 30, 2011. The increase in operating income is due to decreases in salaries and employee benefits expense of \$11.0 million and a decrease in general and administrative expense of \$3.8 million, partially offset by a decrease in net revenue of \$7.9 million. The decrease in salaries and employee benefits is due to a \$9.4 million reduction in fixed compensation associated with a reduction in headcount as a result of the 2011 restructuring and a \$1.6 million decrease in performance-related compensation associated with lower net revenues. The number of consultants was 95 as of June 30, 2012 compared to 128 as of June 30, 2011. The decrease in general and administrative expense is primarily due to a \$1.1 million decrease in travel and entertainment and a \$1.2 million decrease in premise costs.

Asia Pacific reported operating income of \$2.5 million for the six months ended June 30, 2012, a decrease of \$4.9 million compared to operating income of \$7.4 million for the six months ended June 30, 2011. The decrease is due to an \$11.9 million decrease in revenue partially offset by decreases in salaries and employee benefits expense of \$5.8 million and general and administrative costs of \$1.2 million. The decrease in salaries and employee benefits expense primarily reflects a decrease in discretionary compensation associated with the decrease in revenue. The number of consultants was 88 as of June 30, 2012 compared to 80 as of June 30, 2011. The decrease in general and administrative costs is primarily due to a \$0.5 million decrease in travel and entertainment and a \$0.4 million decrease in professional fees.

Global Operations Support expenses for the six months ended June 30, 2012 were \$22.1 million, a decrease of \$1.0 million, compared to \$23.1 million for the six months ended June 30, 2011. General and administrative expense decreased \$1.4 million offset by an increase of \$0.4 million in salaries and benefits. The decrease in general and administrative expense is primarily due to a \$1.0 million decrease in professional fees.

Net non-operating income (expense). Net non-operating income was \$0.1 million for the six months ended June 30, 2012 compared to net non-operating expense of \$1.1 million for the six months ended June 30, 2011.

Net interest income was \$0.7 million for the six months ended June 30, 2012 compared to \$0.6 million for the six months ended June 30, 2011.

Net other non-operating expense was \$0.7 million for the six months ended June 30, 2012, compared to net other non-operating expense of \$1.7 million for the six months ended June 30, 2011. Net other non-operating expense consists of exchange gains and losses on cash and intercompany balances, which are denominated in currencies other than the functional currency and are not considered permanent in nature. During the first six months of 2011, we wrote-off our \$1.8 million investment in JobKoo and our \$1.0 million loan to JobKoo made in the first quarter of 2011. JobKoo is a joint venture in which the Company holds an equity method investment.

Income taxes. For the first six months of 2012, we reported income before taxes of \$10.0 million and recorded an income tax provision of \$7.5 million. Our effective income tax rate for the six months ended June 30, 2012 was 74.6%, down from the first quarter rate of 84.9%. The decrease in the tax rate from the first quarter was due to the impact of periodic charges recorded in the first quarter as compared to increased year-to-date income before taxes.

For the first six months of 2011, we reported income before taxes of \$5.1 million and recorded an income tax provision of \$2.3 million. Our effective income tax rate for the six months ended June 30, 2011 was 45.7%.

Liquidity and Capital Resources

General. We continually evaluate our liquidity requirements, capital needs and availability of capital resources based on our operating needs. We believe that our existing cash balances together with the funds expected to be generated from operations and funds available under our committed revolving credit facility will be sufficient to finance our operations for the foreseeable future, as well as to finance the cash payments associated with our restructuring charges, cash dividends, and stock repurchase program.

We pay the non-deferred portion of annual bonuses in the first quarter following the year in which they are earned. Employee bonuses are accrued throughout the year and are based on our performance and the performance of the individual employee.

Lines of credit. On June 22, 2011, the Company and certain foreign subsidiary borrowers of the Company entered into a Credit Agreement (the "Agreement") with its lenders. The Agreement provides the terms under which the lenders will make available to the Company a committed unsecured revolving credit facility in an aggregate amount of up to \$75 million (the "Facility"). The Agreement includes an expansion feature that allows the Company to seek to increase the aggregate commitment under the Facility by up to \$25 million provided that the Company is in compliance with certain conditions set forth in the Agreement. The Agreement also provides for the issuance of letters of credit. The Facility matures on June 22, 2016. Under the Agreement, the Borrowers may borrow U.S. dollars, euros, British pound sterling, Australian dollars or other major traded currencies as agreed by the lenders. Borrowings under the Agreement bear interest, at the Company's election, at the existing Alternate Base Rate (as defined in the Agreement) or Adjusted LIBOR Rate (as defined in the Agreement) plus a spread as determined by the Company's leverage ratio.

There were no borrowings made or outstanding during the quarters ended June 30, 2012 or 2011. We were in compliance with the financial and other covenants under the Agreement and no event of default existed at June 30, 2012.

Cash and cash equivalents. Cash and cash equivalents at June 30, 2012, December 31, 2011 and June 30, 2011 were \$96.9 million, \$185.4 million and \$103.1 million, respectively. The \$96.9 million of cash and cash equivalents at June 30, 2012, includes \$52.1 million held by our foreign subsidiaries. A portion of the \$52.1 million is considered permanently reinvested in these foreign subsidiaries. If these funds were required to satisfy obligations in the U.S., they could be repatriated into the U.S. which may cause us to incur additional U.S. income taxes or foreign withholding taxes. Any additional taxes could be offset, in part or in whole, by foreign tax credits. The amount of such taxes and application of tax credits would be dependent on the income tax laws and other circumstances at the time these amounts are repatriated. Based on these variables, it is not practicable to determine the income tax liability that might be incurred if these earnings were to be repatriated.

Cash flows used in operating activities. For the six months ended June 30, 2012, cash used in operating activities was \$76.9 million, principally reflecting a decrease in accrued expenses primarily due to cash bonus payments of approximately \$109 million, partially offset by 2012 bonus accruals, a \$16 million increase in trade and other receivables and net income of \$2.5 million.

For the six months ended June 30, 2011, cash used in operating activities was \$61.6 million, principally reflecting a decrease in accrued expenses primarily due to cash bonus payments of approximately \$99 million in March 2011 partially offset by 2011 bonus accruals and other non-cash charges, a \$25.9 million increase in trade and other receivables and net income of \$2.8 million.

Cash flows used in investing activities. Cash used in investing activities was \$5.7 million for the six months ended June 30, 2012 primarily due to capital expenditures of \$5.1 million.

Cash used in investing activities was \$12.1 million for the six months ended June 30, 2011 primarily due to capital expenditures of \$9.8 million, a \$1.0 million loan to JobKoo, an equity method investment, and an increase of \$0.7 million of restricted cash.

Cash flows used in financing activities. Cash used in financing activities for the six months ended June 30, 2012 was \$6.9 million primarily due to \$4.9 million of quarterly cash dividends to shareholders, \$1.6 million of payments for employee tax withholdings on equity transactions and a \$0.4 million earnout payment related to the Bell McCaw Bampflyde acquisition.

[Table of Contents](#)

Cash used in financing activities for the six months ended June 30, 2011 was \$7.8 million primarily due to \$5.1 million of quarterly cash dividends to shareholders and \$2.7 million of payments for employee tax withholdings on equity transactions.

Off-Balance Sheet Arrangements. We do not have material off-balance sheet arrangements, special purpose entities, trading activities of non-exchange traded contracts or transactions with related parties.

Application of Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our Condensed Consolidated Financial Statements, which have been prepared using accounting principles generally accepted in the United States of America. Our significant accounting policies are discussed in Note 2, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the U.S. Securities and Exchange Commission ("SEC") on March 15, 2012, and in Note 2, *Summary of Significant Accounting Policies*, in the Notes to Condensed Consolidated Financial Statements included in Item 1. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. If actual amounts are ultimately different from previous estimates, the revisions are included in our results of operations for the period in which the actual amounts become known.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the financial statements. Management believes its critical accounting policies that reflect its more significant estimates and assumptions relate to revenue recognition, accruals for consultant bonuses, income taxes, contingent liabilities, and the allowance for doubtful accounts. See Application of Critical Accounting Policies and Estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC on March 15, 2012.

Recently Adopted Financial Accounting Standards

On January 1, 2012 we adopted the Financial Accounting Standards Board's guidance to increase the prominence of other comprehensive income within the financial statements. The guidance requires entities to present the components of net income and other comprehensive income either in a single continuous statement or in two separate, but consecutive, statements of net income and other comprehensive income. The option to only present other comprehensive income within the statement of stockholders' equity was eliminated. We have presented the components of net income and other comprehensive income in a single continuous statement.

On January 1, 2012, the Financial Accounting Standards Board Accounting Standards Update No. 2011-08, *Testing Goodwill for Impairment*, became effective. This standard gives an entity the option of performing a qualitative assessment to determine whether it is necessary to perform step 1 of the annual goodwill impairment test. An entity is required to perform step 1, only if it concludes that it is more likely than not that a reporting unit's fair value is less than its carrying amount. An entity may choose to perform the qualitative assessment on none, some, or all of its reporting units or an entity may bypass the qualitative assessment for any reporting unit in any period and proceed directly to step 1 of the impairment test. We perform our annual impairment test during the fourth quarter of each year.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Currency market risk. With our operations in the Americas, Europe and Asia Pacific we conduct business using various currencies. Revenue earned in each country is generally matched with the associated expenses incurred, thereby reducing currency risk to earnings. However, because certain assets and liabilities are denominated in currencies other than the U.S. dollar, changes in currency rates may cause fluctuations in the valuation of such assets and liabilities. As the local currency of our subsidiaries has generally been designated as the functional currency, we are affected by the translation of foreign currency financial statements into U.S. dollars. A 1% change in the average exchange rate for currencies of all foreign countries in which we operate would have increased or decreased our net income for the six months ended June 30, 2012 by less than \$0.1 million. For financial information by geographic segment, see Note 14, *Segment Information*, in the Notes to Condensed Consolidated Financial Statements.

ITEM 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Exchange Act of 1934, as amended, (the “Exchange Act”) Rule 13a-15(e) and 15d-15(e) that are designed to ensure that information required to be disclosed in the Company’s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission (the “SEC”) rules and forms, and that such information is accumulated and communicated to the Company’s management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Any system of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Management of the Company, with the participation of the principal executive officer and the principal financial officer, evaluated the effectiveness of the design and operation of the Company’s disclosure controls and procedures as of June 30, 2012. Based on the evaluation, the Company’s chief executive officer and chief financial officer concluded that the Company’s disclosure controls and procedures were effective as of June 30, 2012.

(b) Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We have contingent liabilities from various pending claims and litigation matters arising in the ordinary course of our business, some of which involve claims for damages that may be substantial in amount. Some of these matters are covered by insurance. Although our ultimate liability in the matter discussed below cannot be determined, based upon information currently available, we believe the ultimate resolution of such claims and litigation will not have a material adverse effect on our financial condition, results of operations or liquidity.

UK Employee Benefits Trust

On January 27, 2010, HM Revenue & Customs (“HMRC”) in the United Kingdom notified us that it was challenging the tax treatment of certain of our contributions in the United Kingdom to an Employee Benefits Trust between 2002 and 2008. HMRC alleges that these contributions should have been subject to Pay As You Earn tax and Class 1 National Insurance Contributions in the United Kingdom; and HMRC is proposing an adjustment to our payroll tax liability for the affected years. The aggregate amount of HMRC’s proposed adjustment is approximately £3.9 million (equivalent to \$6.1 million at June 30, 2012). We have appealed the proposed adjustment. At this time, we believe that the likelihood of an unfavorable outcome with respect to the proposed adjustment is not probable and the potential amount of any loss cannot be reasonably estimated. We also believe that the amount of any final adjustment, if any, would not be material to our financial condition.

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
